

As a result of growing customer demand, Greyhound announced the expansion of its premium Greyhound Express™ service between Chicago and Milwaukee, effective May 17 2011. The expanded service will give customers more travel choices between these markets with departures every hour. In addition, Greyhound added an Express stop at 5800 N. Cumberland Ave (**CTA Blue Line Cumberland Station**) to serve customers near Chicago O'Hare International Airport. This latest route expansion builds on Greyhound Express rapid growth in the Midwest, which now serves nine markets in the region.

"Expanding Greyhound Express frequency-between Chicago and Milwaukee was a clear growth opportunity for Greyhound due to the tremendous demand for our premium service," said Dave Leach, President & CEO Greyhound. "O'Hare is one of the busiest airports in the world and we are pleased to now connect air travelers to other points in the Midwest with our convenient, premium Express service."

Greyhound Express provides premium service with a guaranteed seat for every customer and fares starting as low as \$1. Customers ride on new, environmentally friendly buses equipped with onboard amenities such as free Wi-Fi, leather seats, extra legroom and power outlets. A private waiting area near dedicated departure gates is provided at terminal locations, and a guest services specialist will present an extra level of service. Customers can buy their Greyhound Express ticket online to take advantage of discount pricing, print their ticket at home and know a guaranteed seat is waiting for them.

All tickets are nonrefundable.

There are many advantages to traveling with Greyhound Express beyond simply getting to your destination faster. Greyhound Express service always includes amenities like extra legroom, free Wi-Fi and power outlets in addition to incentives like dollar fares. It's a whole new way to get where you're going.

Wi-Fi We've put a brand-new spin on the idea of the wire-less router. Check email. Upload photos. Download content. All from the comfort of your seat. All for free.

Outlets No more blinking-battery alerts. No more laptops turning into paperweights halfway to your destination! Now you can always be fully charged, thanks to conveniently located electrical outlets.

Extra Legroom We've eliminated five seats on each new bus to give you even more legroom—14 inches in total! So relax and catch some shut-eye. When you ride Greyhound, you won't have to wait till you get where you're going to stretch your legs.

Express Service Who likes to sit and wait? With Greyhound Express, you can reach your destination by traveling from point A to point B without any stops in between on most routes, and with only one rest stop on longer routes.

\$1 Fares Greyhound Express offers fares as low as a \$1 for those who plan ahead, and a fixed-rate fare for those who make their travel plans closer to the last minute. Getting there has never been easier or cheaper.

Reserved Seating On Greyhound Express your seat is always re-served, so there's no need to arrive earlier than necessary to make your departure. If you have a ticket, your seat will be waiting.

Print at Home Print your ticket at home and go straight to the gate. Now you can skip the ticket counter and lines and print your ticket at your convenience, whether at home or at the office. It's never been easier.
